Texas A&M AgriLife Extension Service

# Aquaponics System Design and Operation Workshop

Call 936-539-7824  
with questions. After  
the workshop a  
drawing will be held  
to win the DIY home  
system for free!

*Aquaponics is a method of growing plants in a symbiotic relationship with fish. The fish waste feeds the plants, the plants clean the water that returns to the fish!*

Register now to attend this full day workshop and tour of our demonstration system and discuss our experiences and results. The workshop features both classroom time and "hands on" assembly of a single family Aquaponics system. **Your registration fee also enters you into a drawing to win that system.**

Registration fee: \$75.00

Classroom topics will include:

- History of Aquaponics
- Various system designs and terminology
- Planting and harvest techniques
- Fish health and water quality
- Pump selection and flow rates

Following the classroom introduction you will have the opportunity to learn the skills needed for PVC piping,

Date: Saturday March 19th, 2016  
Time: 8:00 a.m. to 4:00 p.m.  
Location: Tom LeRoy Education Center  
9020 Airport Road  
Conroe, TX 77303  
936-539-7824
